Specialized Solutions

Technology solutions for higher education.

ORACLE®

Taqadom Specialized Solutions is an IT consulting, products and services organisation that drives digital transformation for higher education providers to enhance student success ratio. This resolve is strengthened with its partnership with Ellucian, the world's leading provider for software and services built to power higher education and Oracle a world leader in Enterprise resource planning.

The global Student Information System market size to grow from USD 5.0 billion in 2018 to USD 9.0 billion by 2023, at a Compound Annual Growth Rate (CAGR) of 12.4 % during the forecast period.

Markets and Markets

Deploying a robust integration framework remains a key success factor in Student Information System modernization efforts.

Gartner

Admissions office of a large university in the west reduced admissions decision time from two weeks to two days for over 15,000 applicants using a Student Information System.

HIGHER EDUCATION PROVIDER CHALLENGES

Increased system maintenance and administrative costs

50% students at 4-year degrees drop and 80% at 2-year colleges

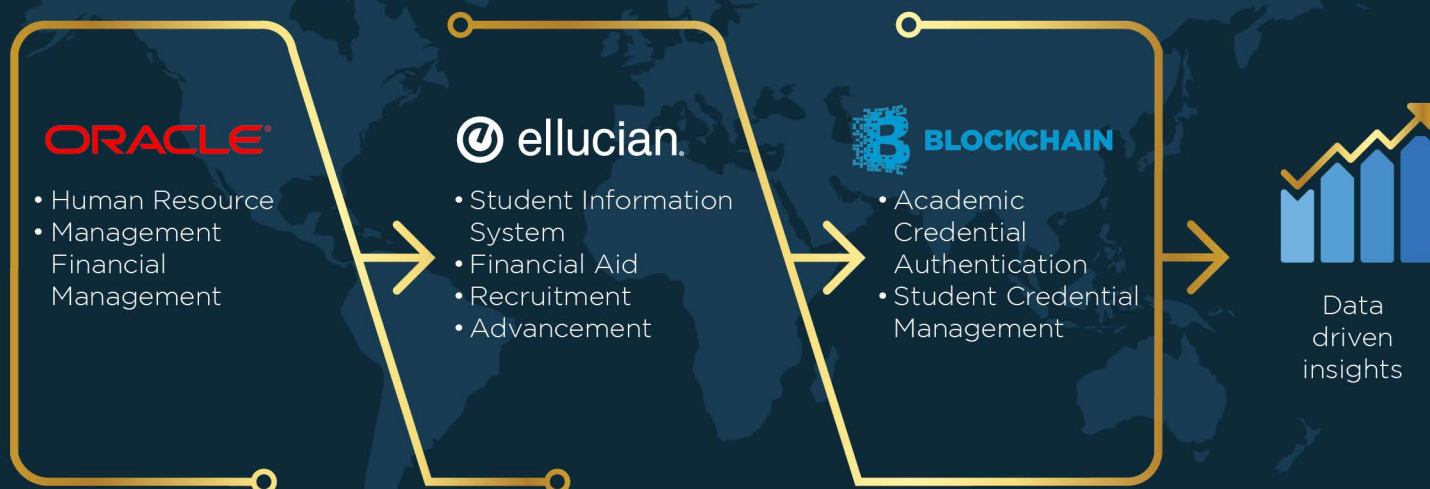

Spend on regulatory compliance
